

# I'm waiting for you.

When I'm sick, I don't see a lot of men nurses. Only about 10% of nurses are male.

**Us kids could use more male pediatric nurses.**

Don't get me wrong: Anyone who becomes a pediatric nurse is a rock star to me. But I'd like to see more male nurses at my bedside.

I hope we can jam together soon.

**Be a rock star.**

**Be a pediatric nurse.**

# Man, we need to talk.

Only about 10% of nurses are male, but 51% of us kids are male.

**We need more men in pediatric nursing.**

Don't get us wrong — female nurses are awesome — but it would be great to get care from male nurses more often.

Be that role model we can look up to who understands what it's like to be a guy.

**Be there for us.**

**Be a pediatric nurse.**
