

Educator / Faculty

RN

Academic educators and faculty members bring pediatric nursing practice to life in classrooms and clinical settings. They develop curricula and instruct, evaluate, and advise students to shape future careers. Their goal is to develop well-prepared nurses who are ready to enter the workforce and make a positive impact on child health.

Committed to growing the next generation of pediatric nurses

Joy of influencing the profession by developing the future workforce

Scholarly drive to conduct research and publish and present findings

Career Steps

1

Obtain your BSN and pass the NCLEX exam. Apply for RN licensure through your State Board of Nursing.

2

Find employment as a pediatric RN and seek your Certified Pediatric Nurse (CPN) credential from PNCB when you meet eligibility.

3

Obtain a master's degree in nursing education.

4

Seek employment in an undergraduate nursing program at a technical college, community college, or university.

5

Obtain a mentor and craft an individualized plan for promotion or advancement.

6

A master's degree may be the goal for a clinical track educator. Otherwise plan for your academic transition to a doctoral track (PhD vs. DNP).

7

Create a plan to achieve certification as Certified Nurse Educator from the National League for Nursing (options include Academic, Clinical, and Novice).

8

Consider a pathway to become an administrator or dean of a school of nursing.
